

2008-09 School Travel Health Check Report

1. How Pupils Travelled To YOUR School

The data below is a summary of your 2008-09 school census pupil mode of travel data:-

												
Mode	Walk	Cycle	Car / Van	Car Share	Public Bus	School Bus	Bus Type Not Known	Taxi	Train	Boarder	Other	Not Known
Pupil Number	332	35	201	41	0	0	0	1	0	0	0	0
Pupil %	54.43	5.74	32.95	6.72	0.00	0.00	0.00	0.16	0.00	0.00	0.00	0.00
Authority %	40.38	4.94	34.79	2.71	3.34	6.85	1.98	0.41	0.33	0.00	0.96	3.31

2. The Impact Of Pupil Travel To YOUR School

The figures below reflect the impact of travelling to school on the health of your pupils and the environment – we have emphasised a couple of the more telling figures. Why not consider doing something similar for your staff? Explanatory notes on the calculations are given in section 8 of this document. Note we calculate the school year as 190 days.

2.1 Walking to School

Number & Percentage of pupils walking.

332 54.43 %

Number & Percentage of pupils living within walking distance

278 45.57 %

(Primary Walking Threshold = 800m, Secondary = 2000m)

Total Distance walked every school day
(Home – School - Home)

643.13 km

Total Walking Calories burned every school day

25,052.16 cal

Total Walking Calories burned every school year

4,759,911 cal

2.2 Cycling to School

Number & percentage of pupils cycling

35 5.74 %

Total Distance cycled every school day
(Home – School - Home)

83.61 km

Total Cycling Calories burned every school day

488.51 cal

Total Cycling Calories burned every school year

92,816 cal

2.3 Coming to School by Bus (All Bus Types)

Number & Percentage of pupils coming by bus	0	0.00	%
Total Distance travelled by bus every school day (Home – School - Home)		0.00	km
Total Bus CO ₂ emitted every school day		0.00	kg
Total Bus CO ₂ emitted every school year		0.00	kg

2.4 Coming to School by Car (Car/Van and Car Share)

Number & Percentage of pupils coming by car	242	39.67	%
Number & Percentage driven from within the walking threshold (800m) (Primary Walking Threshold = 800m, Secondary = 2000m)	85	30.58	%
Total Distance travelled by car every school day (Home – School – Home)		695.50	km
Total Car CO ₂ emitted every school day		131.02	kg
Total Car CO ₂ emitted every school year		27,182.22	kg
Average costs of driving per Parent / Carer for 'school run' every school year	£	207.50	

2.5 Annual Carbon Footprint for All Pupils & All Modes of Travel

Remember to get a daily figure divide the annual total by 190!

Total Travel CO ₂ emitted by whole school	27,485	kg
Average Travel CO ₂ emitted per pupil	45.1	kg
Authority average CO ₂ emitted per pupil	94.4	kg

3. YOUR Overall School Travel Health Check Rating:

The Rating for your School is **GREEN**

RED: Total Travel CO₂ per pupil = More than 10% above authority average
AMBER: Total Travel CO₂ per pupil = Within 10% of the authority average
GREEN: Total Travel CO₂ per pupil = More than 10% below the authority average
